A makeup designer, team leader and teacher with 30 years' experience working with the greatest names in the world of fashion and entertainment, Julie Bégin brings a sleek and contemporary touch to the productions she works on.

Her acute understanding of aesthetic trends and great versatility in techniques distinguishes her from her peers. In both her professional and personal life, Julie Bégin manifests highly refined adaptive skills to the people, cultures and environments that she is called to collaborate with.

Be it for Madonna's MDNA show visuals, the surrealist animated makeup designs for Tiësto's Club Life tour, a conceptual fashion film or an innovative stage production, Julie's methods are wide-ranging and imaginative. Merging techniques borrowed from the visual arts with inventive tools and new technology, Julie never

hesitate to transform and adapt her work process for better efficiency and creative results.

Spearheading a team of 70 as chief makeup designer on the opening ceremony of the Pan Am games, Cirque du Soleil's largest project to date with over 600 performers on stage, Julie's ability to lead, innovate and teach shone through.

The Pan Am games opening ceremony was Julie Bégin's second Cirque du Soleil collaboration. In 2009, she contributed her unbridled imagination to the creation of 50 insect-inspired characters which comprise their 25th anniversary show OVO.

A team player who thrives in a challenging, fast-paced environment, Julie never stops learning, creating and exploring new mediums. Determined to further her creative exploration, she seeks collaboration with artists who are open to innovation, apt to take calculated risks, and who welcome being on that cutting-edge, challenging current dogma and conventional ideas.

Julie Bégin is available worldwide.
